Girl, You Got This!

A Fitness Trainer's Personal Strategies for Success Transitioning to Motherhood

“Eating healthy and exercising regularly will only get harder if and when you conceive and become a mom. If you start now, it will all be easier. That is not to say it will be *easy*—pregnancy can be rough—but easier. Set yourself up for success. Start building the life you want NOW.”

Excerpt from *Girl, You Got This*

Mothers everywhere struggle with finding a comfortable balance between their own needs and their children's needs. “Self-care, what's that?” many moms joke, but believe it or not, you can be a super mom while still taking care of your home and yourself.

Girl, You Got This! is a complete guide to setting yourself up for success while transitioning to motherhood, and the advice comes from an expert. Brittany Renz is a wife, mother of one and a half kids (a three-year-old girl and soon-to-be born baby boy), entrepreneur, and personal trainer. In this book, she uses her knowledge and experience to walk readers through all of the phases of pregnancy, from before conception to delivery.

For each phase of pregnancy, this book offers readers advice not only on fitness and dieting, but also:

- Money: budgeting for a growing family,
- Medical Concerns: finding an OBGYN and pediatrician,
- Housekeeping: establishing cleaning routines,
- Family and friends: setting aside quality time for your loved ones,
- Self-care: staying on top of mental health and personal needs, and
- Work: making plans for your future happiness whether as a career woman or stay at home mom.

Brittany not only *tells* the reader how to get fit and manage their lives while transitioning into motherhood, she also *shows* them how. The book is filled with stunning pictures of Brittany demonstrating fitness exercises while pregnant—including together with her child and husband.

A perfect gift book for expectant mothers... unreservedly endorsed and recommended for personal and community library collections.
